Introduction

Transits to Angles

Location charts respond to transits very much like your natal chart. Although Jupiter, for instance, may not be transiting your natal Ascendant right now, it is transiting your relocated Ascendant somewhere, and that somewhere is likely where you'll easily get a lot of extra attention and enhanced personal prospects if you go there or start doing business with people there. The same goes for the rest of the planets, so you can travel to seek or to escape their transits at the place of your choice.

Planets on Angles

Any planet on one of the angles (Ascendant, MC, Descendant, IC) of your relocation chart will be greatly strengthened when you are at the place of relocation, very much like if it were on the angles of your natal chart. If the Sun is on an angle, you'll have more confidence; if Mars is there you'll have more energy, and so on. Moreover, you don't have to actually go there to get the effect. Having a planet on a relocated angle will accentuate that place for you even if you are only doing business with people there over the phone. You have an accentuated quality to people in such places that you may not have elsewhere.

Transit Venus Ssq DS (Strong)

Attending to business and home affairs here may have you a little disheveled in the next week or so. As a result, you may find it takes a little extra time and effort to look your best or get noticed among the crowd. But first things first, and when you get to it, you get to it. Priorities change, change with them.

Transit Mercury Sxt DS (Strong)

It's extra easy to get your message across to people here right now, because they'll tend to come to you and make contact when they see you. A couple of weeks or so as a facilitator can't hurt, and it's a good time to collect local contacts that you can use later when they don't just drop into your lap.

Transit Neptune On IC (Strong)

You may have mixed feelings about this place right now, because its real relationship to you is not clear. In one sense it feels like home, or a place you could certainly learn to call home. In another, it is very elusive and it can be hard to get your feet on the ground here. Go for the hopeful feelings, but keep a strong link to where you were before.

Transit Saturn Sqr DS (Strong)

You may have a bit of an uphill struggle here for the next year or so, as people will be more demanding and less satisfied than usual and it will be up to you to fill the disappointment gap. If you put out and don't ask for or expect immediate reward, it's an investment. Don't look for short-term satisfaction.

Transit Pluto Sqg DS (Strong)

Expect several years here when trust may be an issue and pressure may seem the only way of getting your way. You're best off avoiding confrontations, as they will only lead to complications, so find a negotiated way out whenever possible. But remember, it's up to you -- blind faith in a positive outcome won't bring one.

Transit Sun Sqg MC (Strong)

You may find yourself having to do some extra efforts here to maintain your status and credibility for a couple of weeks or so. Competing factors make it necessary to demonstrate that you should be preferred over others who may be grabbing the spotlight. You can do that by simply repeating the truth about the situation.

Transit Moon Tri DS (Strong)

For a day or so your image finds extra support here, you're looking and feeling like you're in tune with the situation, both from your point of view and from others'. Run with it while it's hot, because ease always gives way to the tension of the next changing moment, where you'll have to shift gears again.

Transit Mars On IC (Medium)

This is a likely time to be pumping up your current digs here, energetically arranging whatever nest you have made or adopted, be it house or hotel room. A strong starting place means a successful journey, and a stimulating environment on return rekindles the flame on the following day. Well-crafted quarters launch success and nurture victory.

Transit Pluto Sxt IC (Medium)

You've got a rep here of being able to pull people through impossible situations, even if you've never actually done that. That can be a challenge, sometimes, but it's the situation that actually does the work while you ride on top of it, so why not take some of the credit and add it to your resume for a few years?

Transit Jupiter Tri MC (Medium)

Goings-on behind the scenes here work well in your favor and support your accomplishments in ways you may not suspect this year. You will find that you can get a lot done on the ground based on your reputation alone if you associate yourself with the latest local developments. If it's happening, let yourself in on it.

Transit Sun Ssx DS (Medium)

A couple of weeks of confidence in the way you appear here are in store, but it's temporary and local, so make hay while the sun shines. Play off your personal presentation and build support that you may need next month when your authority could be challenged. Look good, and use it to look even better.

Transit Moon Ssq IC (Medium)

A flurry of questions and doubts about your capabilities may need to be addressed for a day or so here, so expect to add some time to your schedule for fielding questions and challenges. If you've already got it covered, it will pass easily, if not, then do a quick fix before it escalates into something serious.

Transit Uranus Ssx DS (Medium)

You can afford to push the envelope here for a year or two, because it won't really look like you're doing it. Being leading edge is just going along with the crowd you'll fall in with, so it won't seem so risky. Lots of interesting discoveries and engaging new contacts are available, so don't be shy.

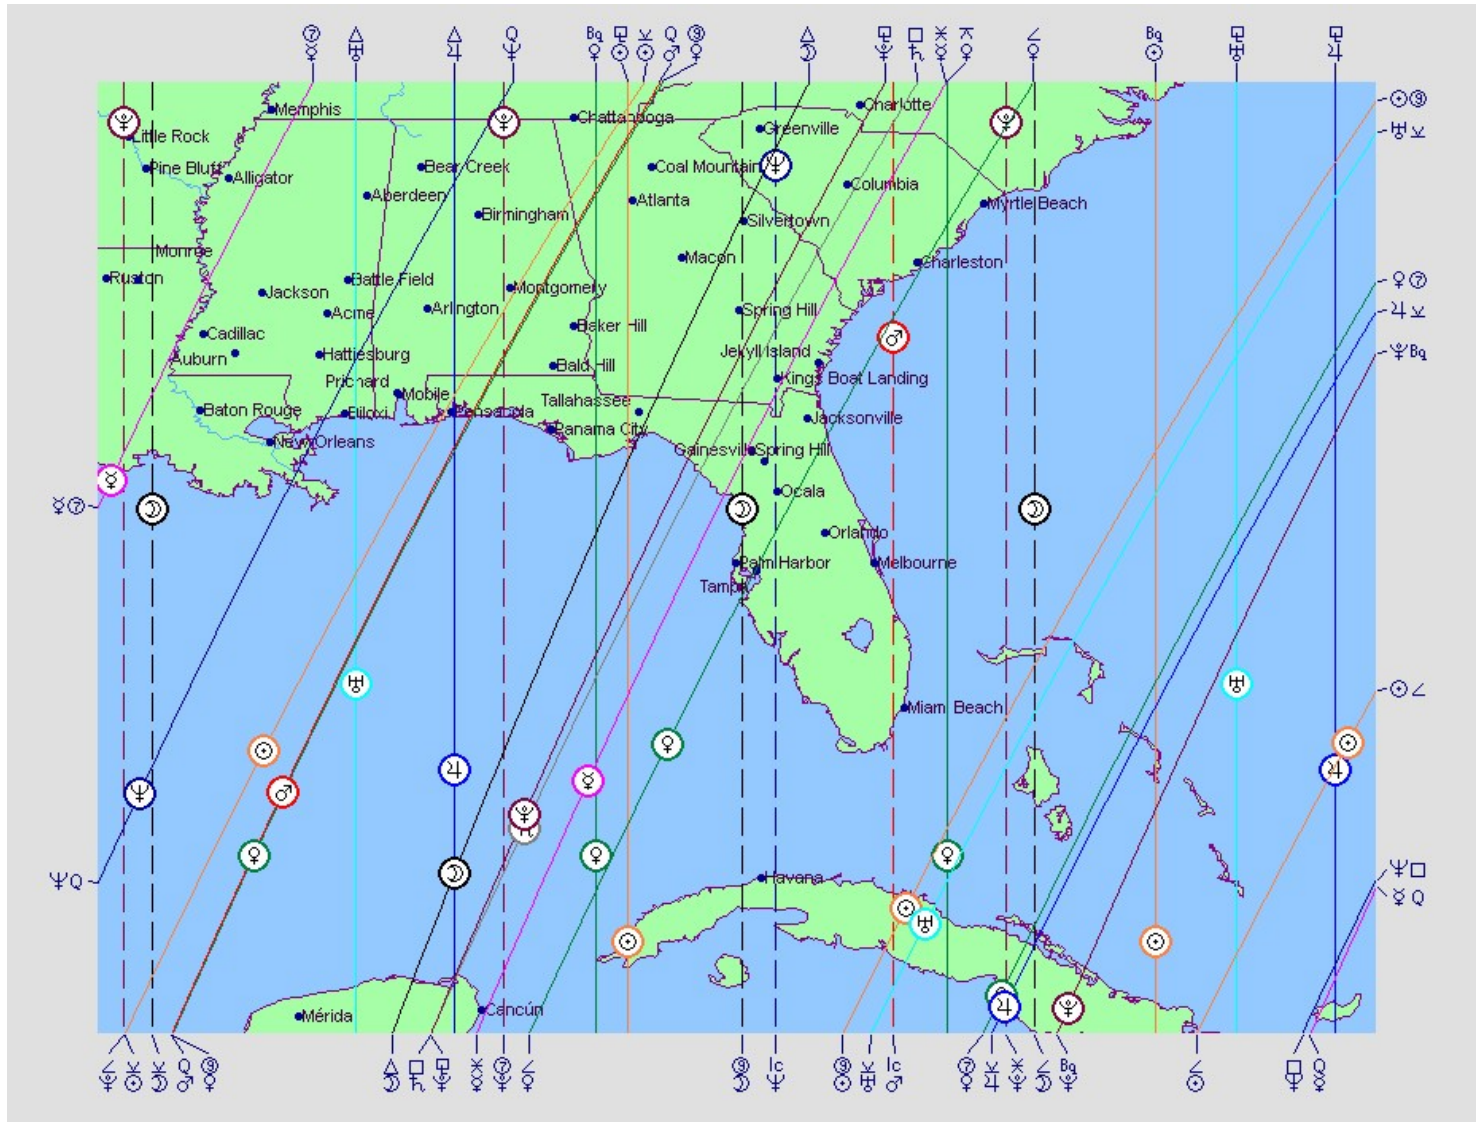

Transit Uranus Tri MC (Mild)

Your reputation as an innovator here is strong for a couple of years, so go ahead and make some moves, even if you haven't done so before. It will only fill out expectations and set you a step ahead on your career track. Look for support in unlikely places and when it comes, don't turn it down -- explore and invest it.

Transit Jupiter Ssx DS (Mild)

This locality can provide you with particularly strong support of a very positive nature this year -- especially in areas where you want to be part of new and cutting-edge operations. In general, the latest that's going on here will tend to welcome you to join in, as it looks like you fit right into the picture.
