# Introduction

Your astrological horoscope (natal chart) at birth is an important key to your personality and character, but your natal chart is not the last word about you. As time moves on after the moment of your birth, the Sun, Moon, and planets continue to circle through the heavens forming ever-changing kaleidoscopic patterns in relation to your own birth chart, bringing out or obscuring this or that part of you.

It can be useful to know how these ongoing planetary patterns relate to your life, and that is what this report is about. Here we calculate the primary astrological changes in your chart and interpret them so that you can see at a glance what is happening at any given time. Your events are arranged and interpreted chronologically, by well-known astrologer Michael Erlewine, and each event includes date and time, keywords, astrological indicator, and an astro-tarot card. We hope you enjoy your forecast.

In the tradition of astrology the planets have always been interpreted separately from the Sun and the Moon, which are called "The Lights," and for good reason. They literally light up our life and their combined interaction describes the essence of what is happening to us at any given time. Although called "The Moon Report," any mention of the Moon automatically involves the Sun, and of course, our Earth. These three, the Sun, Moon, and Earth, in their endless interaction are perhaps the single most important factor to observe in astrology.

The ever-changing relationship in the sky between the Sun and the Moon is perhaps most obvious at the Full Moon, but as we know, it is going on all the time. This report tracks the Sun-Moon relationship as it relates to your particular natal horoscope and birth chart, detailing all of the major events that take place in the current month for a specific life area and planet.

The Moon has always represented the 'mother', meaning anything that nurtures or cares for us, our support system, however that is made up. It also indicates our emotional makeup, how we feel about things, and the nostalgia of the past - where we came from.

On the other hand, the Sun represents the 'father' principle and the future, where we are heading toward and, to some degree, the means we have to get there. The Sun burns brightly, while the Moon is cool and comforting. The two together mark the endless play between the past and the future, and we here on Earth, are caught right in the middle, that is: the present.

## Neptune in your Natal Chart

Before we present your Neptune forecast for the coming months, let's review how the planet Neptune is configured in your natal or birth chart. What follows is an interpretation of Neptune at your birth to the Sun, Moon, and other planets. It should help to give you a general idea of how you related to matters of imagination and spirituality. Here goes:

**Neptune  
Sesquiquadrate  
Moon**  
(Waxing)  
136°10'

## Spiritual Block

You like to make something imaginative or inspiring more real, that is: building it into your life, in some way. You have a natural affinity for this, but may tend sometimes to push too hard in these areas. Taking a more laid-back approach is recommended, along with concentrating on finishing what you already have working for you.

**Neptune  
Quincunx  
Sun**  
(Waning)  
197°20'

## Share Unity

You frequently have somewhat mystical times, with a growing awareness of what inspires the imagination, and you learn how to appreciate and use this experience. You can be an authority on inspirational or spiritual subjects, perhaps as a teacher.

**Neptune  
Quincunx  
Mercury**  
(Waning)  
212°59'

## Inspiring Others

Your growing awareness may be verbalized, and you should be able to find just the right words to describe what are more mystical or inspired times that you will go through. You enjoy talking about spiritual matters with others.

**Neptune  
Trine  
Venus**  
(Waning)  
242°14'

## Preserving

You naturally love whatever is inspirational and imaginative, and you probably like to share or tell others about it, as well. The teacher. You will have some times when you are more aware of spiritual concerns, and probably able to put them into words and communicate with others about them.

**Neptune  
Quincunx  
Mars**  
*(Waning)*  
199°29'

**Share the Feeling**

A gradual awareness and understanding relating to a need on your part for more inspiration and imagination in your life, in general, and perhaps being able to express or put all this into words . Greater acceptance. You know how to use the spiritual urge and share it with others.

**Neptune  
Semisextile  
Jupiter**  
*(Waning)*  
331°28'

**Key Essence**

You are good at squirreling away nuggets of inspiration and imagination relating to career and success. You like to reduce ideas of acceptance and inspiration in these areas to their essence.

**Neptune  
Semisquare  
Saturn**  
*(Waning)*  
315°38'

**Dampened**

You can get tough and critical when it comes to testing your more mystical leanings, and ideals, in general, with an eye to bring more realistic, and staying with the cold hard facts. Not so much fluff. You cut out the unrealistic. Your idea of spirituality is the good and the simple.

**Neptune  
Sextile  
Uranus**  
*(Waxing)*  
052°46'

**Spiritual Energy**

Plans of a more spiritual kind, insights into peace and acceptance, new music, The New Age, etc. move forward, but meet resistance from whatever the past can bring to bear. Best to pay the dues, than to try to avoid these inconveniences. Patience.

**Neptune  
Sextile  
Pluto**  
*(Waxing)*  
057°00'

**Change Blocked**

You may have experiences of deep acceptance, of a more spiritual nature, that dawn on you, but these can meet with all kinds of minor resistance that prevents or delays it from really getting across and being understood. Working through the resistance furthers.

**The Public**

Moon Square Neptune (Wan) Transit to Transit

A shift in consciousness and a turning point, putting a more personal vision or moment of inspiration in perspective and labeling it as just that: "personal," and letting it be just what it was, while taking up a vision that includes sharing that moment with others - a more public embracing of togetherness, what binds people together.

**Tuesday**  
Jul 2023  
**04**

**Wheat From Chaff**

Moon Sextile Neptune (Wan) Transit to Transit

Stepping back from a personal time of inspiration, you can now look at it objectively, even critically, adding up the pros and cons - evaluation. It is easy just now to separate out the inspiration from the surrounding noise. You know what to keep.

**08**

**Inspired Ideas**

Moon Conjunct Neptune (Wax) Transit to Transit

Jul 2023  
**22**

**Inspirational Difficulty**

Moon Opposite Neptune (Wan) Transit to Transit

Could make for a dreamy time, a time of inspiration and togetherness, where you actually feel and experience a more spiritual you, rather than just mouth the words. I am not talking church here (although that is fine), but whatever makes for spirituality in your life should be manifesting as an experience you are having. Feel it.

**Tuesday**  
Jul 2023  
**25**

**Inspiring Others**

Moon Quincunx Neptune (Wan) Transit to Transit

You may perhaps be having a bit of a struggle to get a handle on what we would call (more-or-less) a spiritual experience, which should be resolving itself into something you can grasp and even put into words. You have been through something, and begin to understand it.

**Wednesday**  
Jul 2023  
**26**

**Learning to Accept**

Moon Sesquiquadrate Neptune (Wan) Transit to Transit

A bit of a struggle, perhaps, to get a handle on a more-or-less spiritual experience, which you have just been through. Don't be put off by the ugliness of problems that also surface now. You should have enough grace to deal with them kindly, and taking a more receptive approach will help the most.

**Thursday**  
Jul 2023  
**27**

**Conserving**

Moon Trine Neptune (Wan) Transit to Transit

Here you are putting it all together, making sense out of a more spiritual (perhaps magical or mystical) experience, which is drawing down to whatever conclusion you can make of it. You may be bringing it to mind, sorting out the high points, and cherishing these. This is to be expected. Just understand that it is in the past now, and don't hang on to it.

Even dreams can have shadows, and inspiring times can be dampened by hardship, causing us to awaken before we need to from inspiring moments.
